

OPTION 1 LAYOUT

PLAN

Option 1

- Amalgamation of the existing retail unit with the station office
- Existing information totem to remain in place
- Creation of fire escape route
- Installation of new signage and roller shutter
- Shell and core unit with services to a point.
- The floor level in the retail unit will need to be reduced by approx 240mm to provide level access to the concourse
- The windows in the existing station office would be blocked up with fire rated construction
